

Reduce risk
Boost operational
efficiency
Grow your portfolio

Protecting your Receivables Finance Business

Reduce risk. Decrease cost. Increase efficiency.

Riskfactor is used globally by receivables finance providers and asset-based lenders to manage risk, reduce fraud and maximise efficiency.

Our unique risk metrics analyse your portfolio and instantly highlight any unusual behaviour so that you can take action and investigate the highest risk accounts.

The technology improves efficiency across your business and greatly improves existing risk management processes saving you time and helping you to grow your portfolio.

Client & debtor analysis

Review trends and ratios

Focus lists

Highlight the highest risk clients

Unrivalled knowledge of the receivables finance market

Senior team have

100+ years

of operational risk management expertise

Portfolio review

Take a risk based approach

Follow ups

Assign tasks to investigate

Dashboard

Track follow ups and schedule tasks

Automation

Automates risk processes and workflow

Launched in

1995

Schedules

Manage audits, debt verification, client and debtor reviews

Improve Decision Making, Efficiency and Customer Service

Spot fraud quickly

Spot fraud and unusual activity earlier with timely alerts to changes in client & debtor behaviour.

Focus on growth

Eliminate manual processes to create more time for value-add tasks and increased customer engagement to help drive portfolio growth.

Single view of risk

With all data in one place, you can quickly identify changes in facility performances and focus resource in the right place.

Enhance reporting capabilities

Comprehensive and configurable suite of reports to assist monitoring and reporting over the portfolio to benefit decision making.

Take a risk based approach

Easily identify your highest-risk facilities, giving you more time to focus on your priority accounts as well as growing your portfolio.

Alleviate compliance pressures

Adhere more easily to risk policies and compliance requirements, with all activity recorded for a detailed audit trail.
